

VOICE SIREN SYSTEM

for weather or other alerts

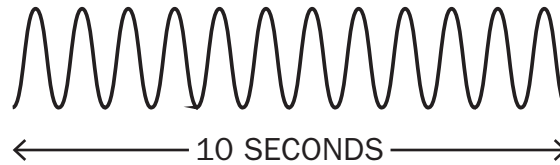

**When you hear
the siren wail**

This is a weather emergency, either a tornado or wind in excess of 60 m.p.h.

Take cover immediately in the lowest interior space available, away from windows. Do not leave this building until the all-clear is sounded.

**When you hear
the siren yelp**

This is a non-weather emergency presenting an immediate threat to your safety, such as a hazardous materials spill or other danger.

Listen for the voice instructions that follow. Take cover nearby. Do not leave this building unless the instructions are to evacuate.

**When you hear
the chimes**

This is the all-clear or a test of the system.

Listen to the voice message that follows.
